THE NATIONAL INDUSTRIAL PARTICIPATION PROGRAMME

INTRODUCTION

The National Industrial Participation (NIP) Programme, which is applicable to all government procurement contracts that have an imported content, became effective on the 1 September 1996. The NIP policy and guidelines were fully endorsed by Cabinet on 30 April 1997. In terms of the Cabinet decision, all state and parastatal purchases / lease contracts (for goods, works and services) entered into after this date, are subject to the NIP requirements. NIP is obligatory and therefore must be complied with. The Industrial Participation Secretariat (IPS) of the Department of Trade and Industry (DTI) is charged with the responsibility of administering the programme.

1 PILLARS OF THE PROGRAMME

1.1 The NIP obligation is benchmarked on the imported content of the contract. Any contract having an imported content equal to or exceeding US$ 10 million or other currency equivalent to US$ 10 million will have a NIP obligation. This threshold of US$ 10 million can be reached as follows:

(a) Any single contract with imported content exceeding US$10 million.

or

(b) Multiple contracts for the same goods, works or services each with imported content exceeding US$3 million awarded to one seller over a 2 year period which in total exceeds US$10 million.

or

(c) A contract with a renewable option clause, where should the option be exercised the total value of the imported content will exceed US$10 million.

or

(d) Multiple suppliers of the same goods, works or services under the same contract, where the value of the imported content of each allocation is equal to or exceeds US$ 3 million worth of goods, works or services to the same government institution, which in total over a two (2) year period exceeds US$10 million.

1.2 The NIP obligation applicable to suppliers in respect of sub-paragraphs 1.1 (a) to 1.1 (c) above will amount to 30% of the imported content whilst suppliers in respect of paragraph 1.1 (d) shall incur 30% of the total NIP obligation on a pro-rata basis.

1.3 To satisfy the NIP obligation, the DTI would negotiate and conclude agreements such as investments, joint ventures, sub-contracting, licensee production, export promotion, sourcing arrangements and research and development (R&D) with partners or suppliers.
1.4 A period of seven years has been identified as the time frame within which to discharge the obligation.

2 REQUIREMENTS OF THE DEPARTMENT OF TRADE AND INDUSTRY

2.1 In order to ensure effective implementation of the programme, successful bidders (contractors) are required to, immediately after the award of a contract that is in excess of **R10 million** (ten million Rands), submit details of such a contract to the DTI for reporting purposes.

2.2 The purpose for reporting details of contracts in excess of the amount of R10 million (ten million Rands) is to cater for multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as provided for in paragraphs 1.1.(b) to 1.1. (d) above.

3 BID SUBMISSION AND CONTRACT REPORTING REQUIREMENTS OF BIDDERS AND SUCCESSFUL BIDDERS (CONTRACTORS)

3.1 Bidders are required to sign and submit this Standard Bidding Document (SBD 5) together with the bid on the closing date and time.

3.2 In order to accommodate multiple contracts for the same goods, works or services; renewable contracts and multiple suppliers for the same goods, works or services under the same contract as indicated in sub-paragraphs 1.1 (b) to 1.1 (d) above and to enable the DTI in determining the NIP obligation, successful bidders (contractors) are required, immediately after being officially notified about any successful bid with a value in excess of R10 million (ten million Rands), to contact and furnish the DTI with the following information:

- Bid / contract number.
- Description of the goods, works or services.
- Date on which the contract was accepted.
- Name, address and contact details of the government institution.
- Value of the contract.
- Imported content of the contract, if possible.

3.3 The information required in paragraph 3.2 above must be sent to the Department of Trade and Industry, Private Bag X 84, Pretoria, 0001 for the attention of Mr Elias Malapane within five (5) working days after award of the contract. Mr Malapane may be contacted on telephone (012) 394 1401, facsimile (012) 394 2401 or e-mail at Elias@thedti.gov.za for further details about the programme.

4 PROCESS TO SATISFY THE NIP OBLIGATION

4.1 Once the successful bidder (contractor) has made contact with and furnished the DTI with the information required, the following steps will be followed:

a. the contractor and the DTI will determine the NIP obligation;

b. the contractor and the DTI will sign the NIP obligation agreement;
c. the contractor will submit a performance guarantee to the DTI;
d. the contractor will submit a business concept for consideration and approval by the DTI;
e. upon approval of the business concept by the DTI, the contractor will submit detailed business plans outlining the business concepts;
f. the contractor will implement the business plans; and
g. the contractor will submit bi-annual progress reports on approved plans to the DTI.

4.2 The NIP obligation agreement is between the DTI and the successful bidder (contractor) and, therefore, does not involve the purchasing institution.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids\(^1\) invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).\(^2\) Collusive bidding is a *per se* prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.
   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

\(^1\) Includes price quotations, advertised competitive bids, limited bids and proposals.

\(^2\) Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

TERMS OF REFERENCE:

1. INTRODUCTION

The Department of Transport (DOT) wishes to appoint a service provider to review and streamline the mandates of the Road Traffic Management Corporation, Cross-Border Road Transport Agency, South African National Roads Agency Limited, Road Accident Fund and Road Traffic Infringement Agency. Further to:

1.2 Review and streamline the provisions of the National Road Traffic Act, 1996 (Act No.93 of 1996) that are affected by the Road Traffic Management Corporation Act, 1999 (Act No. 20 of 1999, the Cross Border Road Transport Act,

2. BACKGROUND

2.1 The National Road Traffic Act, 1996 (Act No.93 of 1996), Road Traffic Management Corporation Act, 1999 (Act No. 20 of 1999), Administrative Adjudication of Road Traffic Offences Act, 1998 (Act No. 46 of 1998), Cross Border Road Transport Act, 1998 (Act No.4 of 1998) contains provisions that deals with issues of law enforcement and road safety functions, there may be a need to review the mandates of the agencies in order to identify areas of possible conflicting or overlapping mandates with a view to resolving them ultimately.

2.2 The legislation of other agencies such as the Road Accident Fund and the South African National Roads Agency Limited contain provisions that amongst others seek to give effect to social security, the management and control of the Republic’s national roads system which includes taking charge of the development, maintenance and rehabilitation of national roads within the framework of government policy. In terms of section 27(1) (c) of the Constitution of 1996, everyone has the right to have access to social security, including, if they are unable to support themselves and their dependants, appropriate social assistance. However, the two agencies are also involved in road safety and road safety promotions and/or law enforcement initiatives either through recent legislative amendments or identified strategic goals.

3. PROBLEM STATEMENT

3.1 Road Traffic Management Corporation

3.1.1 The National Road Traffic Act, 1996 (Act No.93 of 1996) (the NRTA) is the principal Act on the regulation of Road Traffic matters in South Africa. The NRTA provides for the regulation of various road traffic issues such as vehicle
fitness, driver fitness, application of Act and minimum requirements, registration and licensing of motor vehicles, registration of manufacturers, builders, importers and manufacturers of number plates, operator fitness, right of appeal, road safety, dangerous goods, road traffic signs and general speed limit, accidents and accident reports, reckless or negligent driving, inconsiderate driving, driving while under the influence of intoxicating liquor or drugs and miscellaneous offences, presumptions and legal procedure, regulations and general provisions.

3.1.2 The NRTA is amended continuously, and there are some of the factors that lead to its amendments such as newly developed and incorporated vehicle safety standards, dangerous goods standards, improved vehicular technology, inculcation of good ethos and driver behaviour, aspirations and the need to reduce fatal accidents, production of safe and reliable vehicle drivers, or in other instances a lacunae or a gap in the law emanating from general practices of vehicle operators or road users in general.

3.1.3 As the leading Act on the regulation of road traffic matters in the country and thus paving way for other related legislation for synchronisation, alignment and efficient and seamless implementation, the NRTA is also a legislation of concurrent functionality in terms of National and Provincial legislative competence as provided for in terms of Schedule 4 of the Constitution. The other supporting road traffic legislation as mentioned in paragraph 1 above also serve as legislation that aids smoother and seamless implementation of the National Road Traffic Act.

3.1.4 The Road Traffic Management Corporation is the agency responsible for road traffic and law enforcement issues. The nature of its functions is amongst others that of co-ordination of law enforcement strategies in the country as a whole as seen from the long title and provisions of the Road Traffic Management Corporation Act, 1999 (the RTMC Act) which seeks to provide for the co-operative, and co-ordinated strategic planning, regulation, facilitation and law enforcement in respect of road traffic matters by the National, Provincial and Local spheres of government amongst others. So does its preamble which recognises the need to define and strengthen co-operation and co-ordination between the National, Provincial and Local spheres of government in support of
their respective road traffic strategic planning, regulation, facilitation and enforcement. The RTMC Act provides for the establishment of the Road Traffic Management Corporation which must perform its functions in an independent and impartial manner without undue influence from any person. The objectives of the RTMC Act include the strengthening of national and provincial government collective capacity to govern road traffic through partnerships with local government bodies and the private sector.

3.1.5 The RTMC Act further takes cognisance of the need for effecting the pooling of road traffic powers of the Minister and every MEC and the resources of national and provincial spheres of government responsible for road traffic management, in support of enhanced co-operative and co-ordinated road traffic strategic planning, regulation, facilitation and law enforcement.

3.1.6 As a way to support both the long title and preamble as mentioned above, section 6 of the RTMC Act, provides for the establishment of the Shareholders Committee which comprises of the Minister (National), MEC's (all Provinces) and two representatives nominated by the national organisation recognised in terms of section 2 (a) of the Organised Local Government Act, 1997 (Act No. 52 of 1997). The Shareholders Committee is a forum through which the National, Provincial and Local spheres of government co-operate with each other and with other persons or bodies concerned with road traffic matters. This is aimed at synchronisation of road traffic matters and enforcement as alluded to in paragraph 2.3 above.

3.1.7 The other issue of importance that necessitates the review of these Acts is the need to look at the proportionality of powers between the Minister, Chief Executive Officer and the MEC. This issue has been raised in the Inter Departmental Policy and Procedures Committee held between the Department and Provinces in terms of which it has been held that certain powers will be best exercised at provincial level rather than national level due to the fact that the Minister may not be privy to valuable information to assist in seamless implementation of the NRTA.

3.1.8 The mandate of the Corporation is derived from the provisions of the RTMC Act, which provides inter alia that the Corporation must in the public interest,
ensure co-operative and coordinated strategic planning, regulation, facilitation and law enforcement in respect of road traffic matters by the national, provincial and local spheres of Government.

3.1.9 The RTMC Act, in terms of Section 18 (1) provides for the establishment of as many functional units, as part of the organisational structure of the RTMC, to ensure the effective management of the following functional areas -

(a) road traffic law enforcement;
(b) training of traffic personnel;
(c) vehicle registration and licensing;
(d) vehicle and roadworthiness testing;
(e) testing and licensing of drivers;
(f) road traffic information;
(g) accident investigations and recording thereof;
(h) communication and education;
(i) infrastructure safety audits; and
(j) administrative adjudication of road traffic offences.

3.1.10 The Shareholders Committee may in addition to the above functional units also establish functional units to ensure effective management of all other functional areas coincidental with its mandate. Although the RTMC Act is clear on the general mandate of the Corporation, it fails to provide clarity on the mandate of the functional units in relation to the day to day functions to be performed.

3.2 Road Traffic Infringement Agency

3.2.1 The Administrative Adjudication of Road Traffic Offences Act, 1998 (AARTO Act) serves to promote road traffic quality by providing for a scheme to discourage road traffic contraventions, to facilitate the adjudication of road
traffic infringements, to support the prosecution of offences in terms of the National and Provincial laws relating to road traffic, and implement a points demerit system, to provide for the establishment of an agency to administer the scheme, to provide for the establishment of a board to represent the agency and to provide for matters connected therewith.

3.2.2 The legislation of the Road Traffic Infringement Agency (RTIA) also deals with functions that are contained in other legislation such as the South African National Roads Agency Limited and National Roads Act, 1998 (SANRAL Act) and Cross-Border Road Transport Act, 1998 (CBRTA Act). In terms of the agency’s strategic plan 2015-2020 the RTIA’s mission is to encourage compliance with road traffic laws in South Africa through amongst others effective administration and management of the suspension and cancellation of driving licences and operator cards. The main objective is to significantly reduce road fatalities, improve road safety and increase the payment of penalties and ensuring an improved compliance with road traffic legislation. The AARTO Act is an Act intended for national implementation across the country. The RTIA is currently in parliament for the Administrative adjudication of Road Traffic Offences Amendment Bill.

3.3 Cross-Border Road Transport Agency

3.3.1 The Cross-Border Road Transport Act’s (CBRT Act) main objectives are to provide for co-operative and co-ordinated provision of advice, regulation, facilitation and law enforcement in respect of cross-border road transport by the public and private sectors. The CBRT Act also provides for the establishment of the Cross-Border Road Transport Agency (C-BRTA). The C-BRTA is established to conduct and facilitate cross-border road transport law enforcement in respect of cross-border road transport by the public and private sectors.

3.3.2 The C-BRTA Act also deals with functions that are contained in other legislation such as the SANRAL Act, RTMC Act and AARTO Act. For example, the C-BRTA further has law enforcement as a key performance activity in terms of improving compliance with road transport legislation with a key performance indicator being developed and operationalized smart law enforcement strategy.
There are almost similarities in terms of the mandate of the RTIA, RTMC and the C-BRTA in terms of law enforcement. Based on these similarities there is a need to investigate or probe the possibility of collapsing the mandates of these agencies in order to have a more consolidated road traffic law enforcement in the Republic.

3.3.3 Section 3 of the C-BRTA Act provides that the agency "may perform all such acts and do such things as are reasonably necessary for or ancillary, incidental or supplementary to the performance of its advisory, regulatory, facilitatory and law enforcement functions as contemplated in this Act". It is clear from the reading of this provision that C-BRTA is authorized or empowered to conduct law enforcement functions similar to those performed by the RTIA and the RTMC.

3.3.4 As recent as 2016, the Cross-Border Road Transport Agency’s road traffic inspectorate migrated to the Road Traffic Management Corporation to perform their functions under ambit of the RTMC, however, there is still a need to do legislative amendment in order to provide for the migration.

3.4 South African National Roads Agency Limited

3.4.1 The South African National Roads Agency Limited and National Roads Act, 1998 (Act No.7 of 1998) (SANRAL Act) establishes the South African National Roads Agency Limited (SANRAL), a public company wholly owned by the State. SANRAL Act provides for a national roads agency for the Republic to manage and control the Republic's national roads system and take charge, amongst others, of the development, maintenance and rehabilitation of national roads within the framework of government policy.

3.4.2 In terms of SANRAL’s strategic document 2015/2016 – 2019/2020 SANRAL fully supports the Decade of Action (DoA) for Road Safety call by the Commission of Global Road Safety, and endorsed by the United Nations Road Safety Collaboration. This global drive to curb the carnage on the roads was officially launched in May 2011, and has the primary goal of reducing road deaths by half by 2020. It is according to SANRAL’s strategic direction and goal an intention to intensify its road safety activities. The founding legislation of
SANRAL also deals with functions that are contained in other legislation such as the C-BRTA Act, RTMC Act and AARTO Act. As a road agency, SANRAL has also factored road safety related functions in their strategic documents with an aim to fortify their involvement in that area going forward. SANRAL performs law enforcement functions in terms of ensuring compliance with the e-tolls in Gauteng since the implementation of the Gauteng Freeway Improvement Project (GFIP).

3.5 Road Accident Fund/ Road Accident Benefit Scheme

3.5.1 The Road Accident Fund Act, 1996 (Act No.56 of 1996) (the RAF Act) establishes the Road Accident Fund (the Fund) in terms of section 2. The RAF Act provides for compensation including lodging of claims for compensation and the process to be followed in prosecution of claims. The Fund is established to ensure just and equitable compensation for damages which of injuries and/or death resulting from the driving of motor vehicles on South African roads, this is in keeping with the provisions of section 27(1) (c) which provides for the right to have access to social security which includes social assistance if one is unable to support themselves.

3.5.2 The current RAF dispensation resulted in our courts being clogged with RAF matters delaying access to justice for many. The unintended consequences of a fault based system have for decades seen many benefitting unfairly through abusing the system to receive millions of Rands from the RAF, whilst those deserving of cover obtained limited compensation. The Department of Transport (DoT) and the RAF have together fought many legal battles, some in the constitutional courts to, inter alia, close loopholes in the current legislation.

3.5.3 A Commission of Inquiry under the chairmanship of Justice Satchwell was appointed to inquire into and make recommendations regarding a reasonable, equitable, affordable and sustainable system for the payment by the Road Accident Fund of compensation or benefits, or a combination of compensation and benefits, in the event of the injury or death of persons in road accidents in the Republic.
3.5.4 The Commission, *inter alia*, recommended a "no-fault" system that provides benefits in the form of periodic payments governed by an approved tariff, subject to thresholds and monetary caps and paid directly to claimants.

3.5.5 The envisaged RABS Bill provides for the establishment of a new administrator to replace the current RAF, the legislative framework proposes a comprehensive social security safety net based on a no-fault basis which will allow expanded access to much needed benefits to road users, especially lower income groups, widows, orphans and other dependants, previously and currently excluded by virtue of fault.

3.5.6 The alignment of the proposed RABS Bill is critical to ensure that there is no duplication and its functions and powers are clearly outlined.

3.5.7 Furthermore, to ensure that the requirements in terms of the road safety interventions that the new entity can perform to ensure a reduction of accidents are clearly spelled out.
