CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).\(^2\) Collusive bidding is a *pæ se* prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution’s supply chain management system and or committed fraud or any other improper conduct in relation to such system.

b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

\(^1\) Includes price quotations, advertised competitive bids, limited bids and proposals.

\(^2\) Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

TERMS OF REFERENCE FOR THE APPOINTMENT OF A SERVICE PROVIDER TO DEVELOP THE MAPUTO FREIGHT LOGISTICS CORRIDOR BUSINESS CASE
1. **Purpose of these ToR**

These Terms of Reference (ToR) are meant to guide the work of the Maputo Freight Logistics Corridor and its Business Plan. They in essence provide the governance framework for this corridor and its business plan initiative.

2. **Inception of the Maputo Freight Logistics Corridor**

In 2005, Cabinet approved the National Freight Logistics Strategy (NFLS), which has mandated the Department of Transport map and institutionalised the various freight corridors through a Public-Private-Partnership (PPP), as well as enhancing integrated planning between government and the private sector. The NFLS identified the Maputo Development Corridor (MDC) as a key and strategic corridor which is supported by a transportation corridor linking the east-coast Port of Maputo with Gauteng, Limpopo, Mpumalanga and other landlocked countries within the SADC region and the continent (e.g. Namibia, Botswana, Swaziland and Mozambique). The key elements of this corridor are the N4 toll road, the rail corridor, the Lebombo/Ressano-Gracia border post and the Maputo Port and Terminal facilities. The port of Maputo is only 590 km by road from Gauteng and 581 km by rail and presents the shortest route to a port for South African exporters from Gauteng, Mpumalanga, Limpopo and surrounding areas. Cargo through the Lebombo Border Post has grown significantly from almost zero in 2002 to above 3.5 million tons per annum over the years. Currently Transnet Freight Rail moves over 3.5 million tons of cargo per annum, mostly being coal and magnetite exports and little on general cargo. The rail sector in the corridor has capacity to handle over 7 million tons depending on the economic up-turn, however, the long aim is to increase its capacity to over 15 million tons. Transnet Freight Rail (TFR) is working closely with CFM (the Mozambican rail operator) and Swaziland Railways on operations and marketing, and Grindrod, the operator on the Maputo Port Terminal.

2.2 **Why the Maputo Integrated Freight Corridor Business Case?**

As indicated above, that the NFLS mandated the Department of Transport to institutionalise corridors, it therefore was under this mandate that, after the Durban-Free State-Gauteng Freight and Industrial Corridor was institutionalised, that, the Chief Directorate: Freight Logistics deemed it fit that, due to the already existing
institutionalised arrangement (MCLI and TKC) as well as departmental budgetary constraints that, it was apparent that this corridor becomes next, after the Durban-Free State-Gauteng Logistics and Industrial Corridor.

2.2.1 The above-mentioned this corridor has already the following existing nodal point

2.2.1.1 Port of Maputo (throughput over 6.2 million tons)
2.2.1.2 Nkomas SEZ
2.2.1.3 Lebombo Border Post

There is already a relationship between Transnet Freight Rail, Swaziland Railways, CFM (Mozambique Rail Operator) as well as organised private sector.

The intention is to deliver the mandate of the NFLS through institutionalising the Corridor as well as developing a Decision Making Matrix that will indicate the strategic investment requirements as well modelling a viable business case. Most of these investment programmes are privately managed and it is important that government through the Department of Transport, lead them in order to drive the current Presidential Stimulus Package. MCLI which used to work with the Department has since ceased to exist this year (2019) and it is therefore important for the Department to sustain and enhance this corridor work similar to the institutionalization of the Durban-Free State-Gauteng Logistics and Industrial Corridor. The outcome of the Business Case would be a packaged business plan with an investment programme.
