SBD 8

CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a pe se prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:

   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.

   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

1.1 The purpose of the Terms of Reference is to appoint a highly qualified, skilled and experienced Subject Matter Expert(s) (SME) to provide technical, analytical, quality assurance and advisory services of outputs received from the 13 selected municipalities.

1.2 These terms of reference detail the qualifications, skills experience requirements, the work that will be expected to be performed, as well as other relevant contractual and working arrangements that will apply.

1.3 Offers will be accepted from individuals and or companies that propose to provide resources for this work. In the case of companies, they should provide a list of their core team of a maximum of 3 individuals. The basis for the evaluation will be qualifications, skills and experience of individuals.

2. BACKGROUND

2.1 The National Department of Transport (NDoT) is implementing a "Public Transport Strategy" of Integrated Public Transport Networks (IPTN) as one of its National Development Plan aligned enterprises.

2.2 The NDoT funds the 13 municipalities through the PTN Grant to implement phased Integrated Public Transport Networks (IPTN) in line with the requirements outlined in the Division of Revenue Act.

2.3 NDoT jointly with the National Treasury, have over the last two financial years embarked on a process for the Public Transport Network Grant (PTNG) streamlining and creating greater consistency around the grant application process. The Division of Revenue Act requires that the city recipients provide a fiscally and financially sustainable Integrated Public Transport Network (IPTN) plan, as a pre-requisite to funding. To ensure consistency in the process of IPTN application and assessment, the two departments have embarked on a reform program that has:

1) Standardised the content and process of IPTN production through a Guideline for IPTN development, introducing among other requirements for better plan development, multiyear financial planning, and spatial integration;

2) Clarified and simplified the process of budget application, through focus on targeted and critically relevant information; and

3) Produced a toolkit for IPTN assessment, for the purposes of consistently assessing the presented budget allocations.

2.4 NDoT is currently also procuring service providers to provide technical oversight and support on various aspects of IPTN formulation and implementation, and grant monitoring services across the 13 municipalities that are PTNG recipients and implementing IPTNs.

2.5 There is a need to independently review and quality assure performance analysis, IPTN reports or dashboards and outputs received from the 13 selected municipalities.

3. SPECIFIC REQUIREMENTS

This call for proposals is to provide material examination support and reporting for the annual PTNG application process, and update benchmarking figures for operational
cities. The SME will also be required to provide technical assistance in workshops with senior city leadership.

The main tasks to be performed are:

- Examine city multiyear financial plans in terms of the reformed IPTN development process. This will be based on among others the requirements as provided for in the IPTN Guidance Document.
- Assess the credibility of the presented budget applications, taking into consideration the requirements of the IPTN Assessment Toolkit.
- Perform data analysis of all budget applications submitted by the cities and make follow ups where information is not provided/ not sufficient.
- Provide limited support to cities in budget application processes.
- Update benchmarking figures for IPTN operational cities as per the template provided.
- Produce reports and dashboards for grant management information and decision-making.
- Conduct workshops with selected cities (13 cities) as and when required.
- Provide inputs into the development of revised guidelines, templates for the IPTN toolkit, and circulars/ instructions as and when required.
- Provide quality assurance, assess validity, accuracy and completeness of information/ outputs submitted to NDoT by the 13 selected municipalities.

3.2.1 Assess:

- A set of well-defined projects emerging from the long term strategy in the IPTN, clustered into a 10 year program of implementation or more;
- The financial and fiscal sustainability of the projects based on:
  - Costs covered by the projects, both operating and capital for both existing services and planned new services:
    - **Capital cost estimates** including planning, engineering, procurement, acceptance testing, inspection and financing etc;
    - **Operating costs** including contracted bus operations, ITS systems, station management, compensation and other related costs.
  - Revenues including projected passenger fare revenues, and other system income such as advertising revenues, concession fees, and government supporting revenues such as local taxes, government grants, and government loans.
  - The SME will need to assess a number of variables related to the above cost and revenue numbers including land use variables (e.g. seat turn over, reverse flow demand, peak passenger demand per hour etc.) and bus operations variables (driver ratios, bus capacity, bus speed etc.)
- Spatial strategies as provided in the city IPTN, and alignment with the Built Environment Performance Plan (BEPP). The SME will provide limited support to cities in providing this information based on the new application format.

3.2.2 Assess for credibility of the budget numbers, based on among others:

- Spatial strategies in the IPTN;
3.2.3 Provide a report on the fiscal and financial sustainability of the application including its integration with spatial strategies. The SME will also be called upon to workshop these with the leadership in selected cities.

3.2.4 Update the operational benchmark figures for IPTN systems.

3.2.5 Attend workshops and sessions for the consultation and finalisation of additional documents for the IPTN, as well as selected workshops to be held with the cities on the rethink and revision of their IPTNs.

3.2.6 As directed by NDoT, conduct quality assurance checks and assessment of the Grant Monitoring service providers procured separately by NDoT.

3.2.7 Assist NDoT in convening the different Grant Monitoring teams and providing them with standardised templates as any other guidance as is required to ensure high quality oversight of IPTN projects.

2) An update of the benchmarking figures for operational IPTNs.
3) Quality Assurance review reports of the 13 selected municipalities outputs and standardised Grant Monitoring template.
