1 April 2026

**TO: All heads of departments  
Accounting officers**

### TARIFFS FOR THE USE OF MOTOR TRANSPORT

1. Amendment No. 4 of 2026 to the Annexure of Transport Circular No. 1 of 1977 (Transport Handbook on Tariffs for the Use of Motor Transport Rates, as amended for private vehicles).
2. Amendment of Annexure B to the instructions regarding the new Subsidised Motor Transport Scheme (Schemes A and C).
3. Effective 1 April 2026, the Tariffs for the Use of Motor Transport will include reimbursement for electric vehicles under Category G.

As a result of the fuel price fluctuation on 1 April 2026, the following tariffs are amended with effect from that date.

Please note that the vehicle categorisation provided by manufacturers is used in calculating the rates.

- ❑ **Private rates include fuel, maintenance, capital, insurance and depreciation.**  
These rates apply to all individuals using their privately owned motor vehicles for transport, including those who have opted for structured car allowances and all officials participating in Scheme B of the Subsidised Motor Transport Scheme.
- ❑ **Subsidised Scheme A rates are inclusive of fuel only.**  
These rates are to be used by all officials participating in Scheme A of the Subsidised Motor Transport Scheme, where the government contributes towards the capital, insurance, and maintenance of the vehicle.
- ❑ **Subsidised Scheme C rates are inclusive of maintenance only.**  
These rates are to be used by all officials participating in Scheme C of the Subsidised Motor Transport Scheme. This rate must be added to the Scheme A rate to determine the reimbursement rate in cents per kilometre.
